

## REPLACEMENT WINDSCREEN APPLICATION CHART

### Windscreens

Special high-volume production methods make this quality windscreen available at an affordable price. Aerospace-type "blow molding" construction rivals the strength, fit and clarity of more expensive Zero Gravity screens. Satin-finished visible edges, available in clear, smoke and these standard colours: red, fluorescent blue, dark blue, dark, purple, green and yellow. ZERO GRAVITY, committed to providing the highest quality for the performance rider!

ZERO GRAVITY offer three different style of windshields:

The SR (OEM replacement), The Double Bubble (Slightly raise) and the Sport Touring (maximum wind protection)

## SPORT TOURING™

On occasion sport riders may want to use their sport bikes to commute or for long trips where most of the ride is in the upright position. In that case the Zero Gravity Sport Touring™ Series of windscreens may be a sure bet. Made to the same high quality standards and specifications as all Zero windscreens, the Sport Touring™ screens are taller and sometimes wider than the OEM screens and often incorporate a slight "rise" in the upper half of the screen to deflect the wind. Though each rider's experience will be different depending on his or her physical dimensions, the Sport Touring™ windscreens will raise the point at which the wind hits the rider and will often result in a more comfortable ride. Available in clear and smoke.
